Yoshimitsu Yamada 1938-2023

It is with sadness that we learned the news of the death of Yamada Sensei, which occurred on January 15, 2023 in New-York.

He had been teaching aikido there since 1964. At the death of Tamura Sensei and Sugano Sensei, whose teaching Larbi El Akel followed for nearly 30 years, Yamada Sensei also became involved in the development of aikido in Europe. It is in this capacity that he was also the technical director of our club. His last visit, for the Sugano memorial, was in October 2022.

We express him our gratitude for his teaching.

Dear members and friends,

I would like to thank you on behalf of myself and the entire dojo management team for your generosity.

Thanks to you, we can look forward to the future of the dojo.

We are implementing different actions to make aikido and our dojo better known.

Our young members are real specialists in social networks! They are promoting the dojo on You tube, TikTok, Instagram, Facebook-Stage 123W, Facebook-REM Aiki and the bi-monthly Newsletter.

Have a look at the links on the front page and don't hesitate to Like to encourage them!

TO ALL!

It is the first title in the hierarchy of teachers.

Explanations and history see: [link](#)

Larbi went to the Aikikai in New York, the school founded by Yamada Sensei.

A homage ceremony took place on 25 February. Many practitioners and teachers came from all over the world.
